

CYBERSPACE SUPPORT TO FID

Last Updated: 10 July 2015

Cyberspace support should be integrated into US forces [foreign internal defense](#) planning and activities at all levels of indirect and direct support operations. [Cyberspace operations](#) are key force multipliers, mission assurance providers, and risk mitigators for operations. Refer to Joint Publication 3-12, *Cyberspace Operations* (available on the classified Joint Electronic Library system), and AFPD 10-17, *Cyberspace Operations*, for additional guidance on cyberspace best practices, capabilities, roles, responsibilities, command relationships and other authorities.
